Light,
engineered to belong.

Architectural, decorative and smart lighting solutions shaped by design,
engineering and more than 25 years of lighting expertise.

About Edison

We design atmosphere, not just illumination.

For more than 25 years, Edison Lighting has combined lighting engineering, design and manufacturing to deliver LED luminaires, light sources and smart lighting solutions for projects in India and international markets.

The company operates as a subsidiary of a UK-based parent headquartered in Dubai, with manufacturing facilities in Mumbai and Bangalore.

PRESENCE ACROSS MULTIPLE
MARKETS

Our Solutions

From concept to commissioning.

A project-led approach that brings design intent, technical performance and practical delivery into one lighting solution.

01

Lighting Design

Collaborative design that balances atmosphere, aesthetics and function.

02

Custom Lighting

Bespoke fixtures and project-specific solutions shaped around the space.

03

Smart Integration

Smart home lighting control and connected lighting solutions.

04

LUX Reports

Lighting calculations and reports to support project planning and performance.

05

Efficient LED

Energy-efficient LED technology engineered for dependable output.

06

Sustainable Solutions

Lighting choices designed with efficiency and long-term use in mind.

07

Product Range

Architectural, decorative, indoor, outdoor and specialized lighting with Smart Home integration.

08

Ongoing Support

Maintenance support and cost-efficient upgrade solutions.

The Edison Difference

Where engineering performance meets visual restraint.

Performance first

A focus on engineering performance and safety.

Bespoke capability

Custom lighting design that responds to space, material and intent.

Design partnership

Solutions developed in collaboration with clients and project teams.

Holistic delivery

From luminaires and controls to LUX reports and ongoing support.

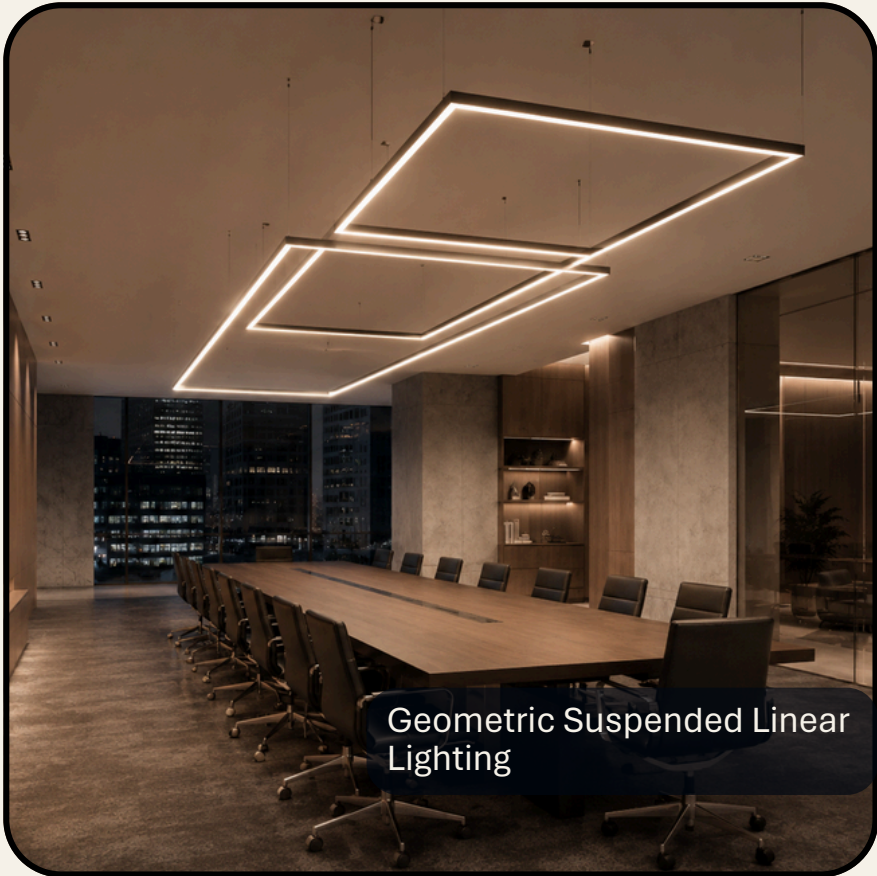

Architectural Lighting

**Precision that disappear
into the architecture.**

Customized linear lights, linear profiles, track lights, downlights and focused architectural luminaires built for clean ceilings, disciplined lines and controlled illumination.

● Architectural Lighting

Decorative Lighting

Statement pieces with a quieter kind of luxury.

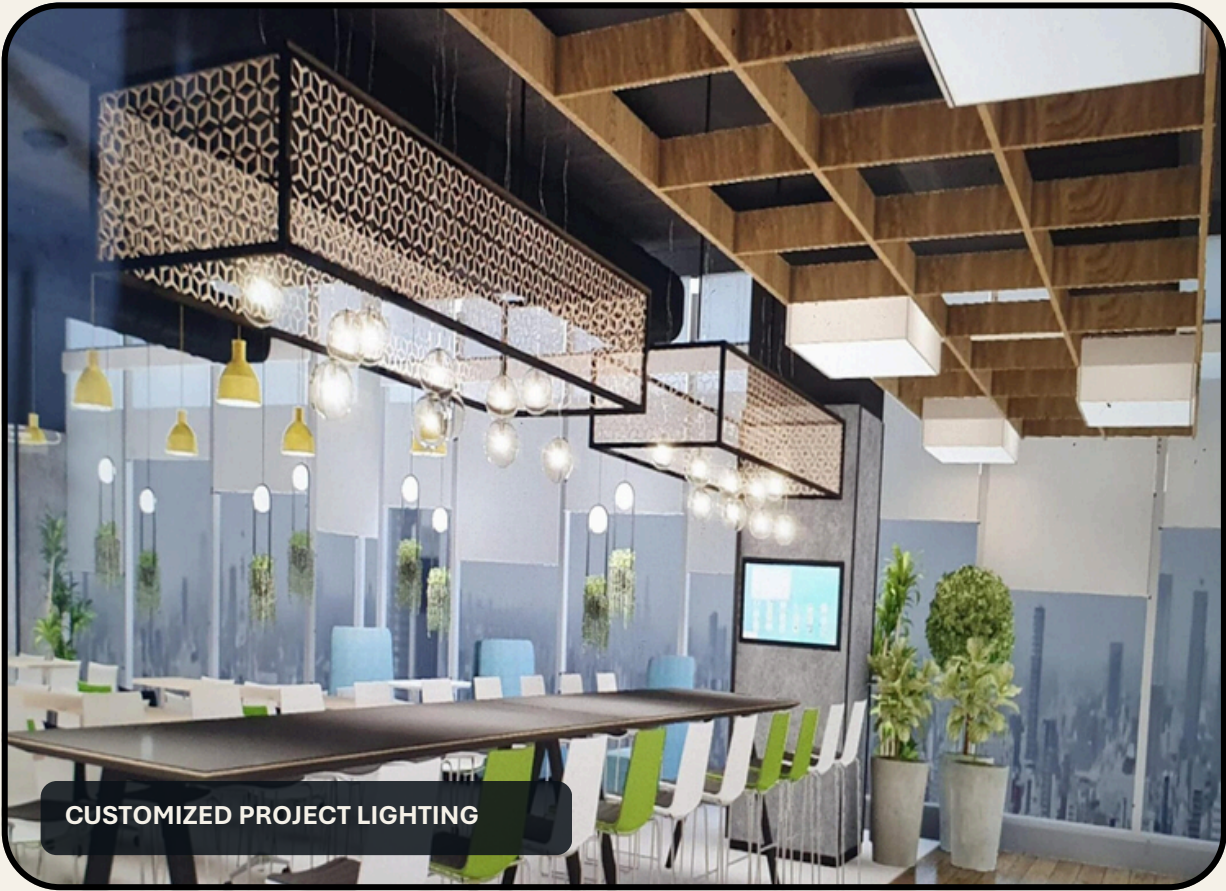

Hanging lights, Floor lamps and wall fixtures that bring warmth, rhythm and character without overpowering the space.

● HANGING · FLOOR · WALL

Material-led lighting for spaces that need something unique.

From acoustic forms to cane and project-specific fixtures, Edison’s portfolio extends beyond standard luminaires into tailored pieces with a distinct visual identity.

● CUSTOM · ACOUSTIC · CANE · FABRIC

LIGHTING

Tossa

Signature Collection

The Art of Woven Light

Inspired by the quiet beauty of natural fibres, Tossa brings together thread, jute, cane, wood and metal in a collection shaped by hand, texture and light.

The name Tossa draws from Tossa Jute, a natural golden fibre celebrated globally for its organic strength, rich silky texture, and unmistakable character. We reinterpret that timeless craft through the lens of contemporary architectural lighting.

Smart & Responsible

Lighting that works harder and wastes less.

Edison's solution set includes energy-efficient LED technology, smart lighting integration, sustainable solutions and ongoing maintenance and support.

Smart Lighting Integration

Connected control systems that support more intuitive lighting experiences.

Energy-Efficient LED

Technology focused on useful light output and efficient operation.

Sustainable Solutions

A commitment to solutions that support a brighter, more sustainable future.

Ongoing Support

Maintenance and upgrade support that extends beyond product supply.
